Bangor, Nov. 8, 1858 2awism

SWAIM'S

Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country, and in Europe for its extraordinary cures—for the certificates of which reference is made to the directions and books, (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune of being recommended by the most celebrated physicians and other eminent persons. Among others by

W. Gibson, M. D., Prof. of Surgery, Pa. Univ.
Valentine Mott, M. D., Prof. of Surgery, New York University.
W. P. Dewees, M. D., Prof. of Mid., Pa. Univ.
N. Chapman, M.D., Prof. of Physic, Pa. Univ.
T. Parke, M. D., Pres't College Physicians, Phila.
Dr. del Valle, Professor of Medicine, Havana.
Jose Eourenco de Luz, Prof. of Surgery, Lisbon.
J. Chipman, Member Royal College Surgeons, London.
G. W. Irving, late Minister to Spain.
Sir Thomas Pearson, Maj. Gen. British Army.
Gilbert Robertson, British Consul, &c., &c.

Besides a large number of Ministers of the Gospel, Members of Congress, Philanthropists, &c.

And also, the wonderful cures effected by Swaim's Panacea, have for many years made it an invaluable remedy. The Panacea does not contain mercury in any form, and being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1,50 per bottle, (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally with the following letters blown on the glass:

"SWAIM'S—PANACEA—PHILADA."

and having the name of JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork, and a new label for the side of the bottle, composed of geometric lathe work, comprising nine different dies, which have been taken for the exclusive use of the proprietor, by Draper & Co., bank note engravers, of Phila. Four dies of different patterns form the body of the work, and in the centre is a portrait of the late Wm. Swaim, separated from the borders by two circles of lathe work. The words "Swaim's Panacea" are engraved conspicuously on two thread stripes, and a large semi-circular die forms the upper margin. The borders are composed of plain lathe work strips, outside of which is engraved, in small letters, the entry of the copyright. Also,

Swaim's Vermifuge,

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and Ague, Bleeding Piles, Sick Headache, &c., &c. (See the Pamphlet (which may be had gratis) accompanying the Vermifuge.

Prepared only at SWAIM'S LABORATORY, THE OLD STAND, Seventh Street, below Chestnut, Philadelphia, and sold by all the respectable druggists in the United States.

CAUTION TO THE PUBLIC.

Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name

SWAIM

is spelled correctly on the bottle and labels, or they may be imposed on by medicines made in imitation of them by a person bearing a somewhat similar name, well calculated to deceive.

U. S. Marshal's Notice.

UNITED STATES OF AMERICA,
DISTRICT OF MAINE ss.

PURSUANT to a monition from the Hon. Ashur Ware, Judge of the United States District Court within and for the District of Maine, I hereby give public notice that the following Libel has been filed in said Court, viz:

A Libel against *The Steam Vessel called the* TERROR, *her tackle, apparel and furniture*, seized by virtue of a Warrant of Attachment issued from said United States District Court, for breaches of the laws of the United States, as more particularly set forth in said Libel; that a hearing thereon will be had thereat at *Portland*, in said District, on the fourteenth day of *December* next, where any persons interested therein may appear and show cause, if any can be shown, wherefore the same should not be decreed forfeited and disposed of according to law.

Dated at Bangor this twenty-fourth day of November, A. D. 1858.

REMOVAL.

United States and Foreign

PATENT AGENCY.

SAMUEL COOPER,

Late Principal Examiner of Patents in the United States Patent Office, at Washington,

HAS REMOVED HIS OFFICE TO

WEBSTER BANK BUILDING,

13 Exchange-Street, Boston.

PATENTS secured in the United States, and in all other patent granting countries. Specifications and drawings prepared. Caveats filed. Reconsiderations procured, of applications that have been rejected upon imperfectly prepared papers. Interferences prosecuted. Re-issues and extensions procured, and in general all business connected with the Patent Office transacted with care and promptness.

British and other foreign patents prepared thro' prompt and confidential agents in London and Paris.

Persons residing at a distance may obtain all necessary information, and have their business transacted, by writing to the subscriber, without the trouble and expense of a visit to Washington.

He begs leave to refer those unacquainted with him to the following testimonials:—

From the Hon. Charles Mason, Commissioner of Patents.

U. S. PATENT OFFICE, Feb. 22, 1855.

I take great pleasure in stating that during the time I have been acting as Commissioner of Patents, Samuel Cooper, Esq., of Boston, has been engaged as Examiner, and has been in that capacity in constant correspondence and intercourse with the Office, he has evinced a thorough acquaintance with the Patent Law, and with the rules and practice of the office, a close attention to the interests of his clients, and a marked candor and courtesy that has rendered the transaction of business with him a pleasure. I have no hesitation in stating that I regard him as one of the very best agents for the transaction of business with this office with whom I am acquainted.

CHARLES MASON, Commissioner.

From the Examiners of the Patent Office.

The undersigned, Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, late a Principal Examiner in this office, and take pleasure in testifying that he is a gentleman of the highest moral character, [illegible] knowledge in the business and practice of the office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage.

HENRY B. RENWICK, } Principal
L. D. GALE, } Examiners.
S. H. LANE,
F. SOUTHGATE SMITH, } Assistant
T. R. PEALE, } Examiners.
THOS. T. EVERETT,
WM. C. LANGDON,

From long acquaintance and intimate official relations with Mr. Cooper, I fully and heartily concur in the foregoing recommendation made by my late colleagues.

WM. P. N. FITZGERALD,
Late Principal Examiner of Patents.

Boston, Jan. 13, 1858 lawly

E. L. LEGROS,

Wig Maker and Hair Cutter,

(FROM PARIS,)

No. 41 Main Street, Bangor, opposite the Hatch House,

Gives his personal attention to all business entrusted to him, and would respectfully say to the Ladies of the city and vicinity, that he has a separate room for their accommodation, where he can give the most perfect satisfaction of any Hair Dresser in the city, having had a long experience in the business in Paris, as well as other places.

Ladies and Gentlemen's Wigs, Half Wigs, Toupees and Front Pieces, Long Hair Bands for French Twist, Front Braids, Long Ringlets, Curls, Beards, Moustaches, &c.

NOTICE.

THE Public are severely cautioned against *Fast Driving* in the streets in this city. The lives of people are in danger every day from fast driving in the streets. I shall take notice of every violation of the law and ordinance of the City, in this respect, which shall come to my knowledge, and will punish every offender to the extent of the law. I trust that this caution will put a stop to this pernicious and dangerous practice in our streets. Several cases of injury to citizens have occurred within a few days.

H. R. FARNHAM, City Marshal.

NEW FEATURES—FIFTH YEAR OF THE

COSMOPOLITAN ART ASSOCIATION.

SUPERB ENGRAVING—

BEAUTIFUL ART JOURNAL—

Valuable Premiums, &c., &c.

THIS popular Art Association, now in its fifth year of unparalleled success, having purchased, and engraved on steel, Herring's great painting, "THE VILLAGE BLACKSMITH," will now issue copies (to subscribers only) on heavy plate paper, 30x38 inches, on the following

Terms of Subscription.

Every person remitting *three dollars*, will receive a copy of the superb Steel Engraving, after Herring's celebrated Painting,

THE VILLAGE BLACKSMITH.

Also a copy of the beautiful

COSMOPOLITAN ART JOURNAL,

An elegantly illustrated quarto Magazine. Also free season tickets of admission to the Eastern (or Dusseldorf) and Western Galleries of the Association.

There will also be given to the subscribers several hundred valuable works of Art, comprising fine Oil Paintings, Bronzes, Sculptures, &c., &c., from celebrated American and foreign artists.

Subscriptions will be received up to Jan. 1, 1859. On the evening of that date the premiums will be awarded to subscribers.

For full particulars, see December ART JOURNAL, price 50 cents. Specimen copies sent to those desiring to subscribe, on the receipt of 18 cents in postage stamps or coin. Address

C. L. DERBY, Actuary C. A. A.,
Eastern Office, 546 Broadway, N. Y.,
or Western Office, 166 Water st.,
Sandusky, Ohio.

MOREHEAD'S

MAGNETIC PLASTER

The GREAT STRENGTHENER and PAIN DESTROYER.

THE best and cheapest Household Remedy in the World, simple and pleasant in its application, certain and effectual in its results. A beautiful scientific, external Curative, applicable for the relief of Pain at any time in any place, to any part of the human system, and under all circumstances. If you put this Plaster any where, if Pain is there the Plaster will stick there until the Pain has vanished. The Plaster magnetizes the Pain away, and

Pain cannot exist where this Plaster is applied.

Rheumatism, Lameness, Stiffness, Weakness, Debility, Nervousness, Neuralgia, Dyspepsia, Coughs and Colds, Pains and Aches of every kind, down even to Corns, are IMMEDIATELY RELIEVED, and with a little patience, PERMANENTLY CURED, by the magical influence of the MAGNETIC PLASTER. It is the simplest, surest, safest, pleasantest and cheapest remedy in existence. Its application is universal—equally to the strong man, the delicate woman and the feeble infant. To each and all it will prove a Balm and a Blessing. Its use is agreeable, and without annoyance or trouble. Its price is within reach of all—rich or poor, all may have it, and all should have it who are sick and suffering in any way.

FARMERS should always be supplied with this invaluable PLASTER. It will be the Good Physician in any household, ready at all times, and at an instant notice.

Put up in air-tight tin boxes. Each box will make six to eight plasters, and any child can spread them. Price 25 cents a box, with full and plain directions.

D. C. MOREHEAD, M. D.,
Inventor and Proprietor,
19 Walker st., New York.

MOREHEAD'S MAGNETIC PLASTER is sold by all Druggists in every City, Town, and Village in the United States.

STATE OF MAINE.

EXECUTIVE DEPARTMENT,
Augusta, Nov 12, 1858.

An adjourned session of the Executive Council will be held at the Council Chamber, in Augusta, on *Wednesday*, the fifteenth day of December next. Attest,

NOAH SMITH, Jr,
Secretary of State.

"The declaration that all men are endowed with an inalienable right to liberty, and that this right is self evident, is contradicted by natural reason, by natural religion, and by the sacred Scriptures, and leads not only to infidelity, but also to anarchy and atheism."—*Boston Courier.*

This attack upon the "glittering generalities" was made by the Courier some weeks ago, in reply to the following sentiment, enunciated at a Republican Convention prior to the Massachusetts election:—

"Nothing can be more certain than that man was formed by his Maker for freedom, and that all men have a right to be free. Nothing can be more true than the declaration in the immortal instrument which asserts our national independence, that 'all men are created equal, that they are endowed by their Creator with certain inalienable rights, and that among these are life and LIBERTY.' Nothing can be more certain than that God implanted in the human soul a desire of liberty, which is a fair expression of what he intends shall be the settled condition of things in the world."

The Courier says this is all a mistake. God did not intend all men for freedom—but on the contrary, some were created for servitude as long as the races shall endure. The elder patriots of the revolution—the statesmen and sages of the formative period of our Republic—Washington and Jefferson, and Madison—John Hancock, the Adamses, Otis, Jay, Patrick Henry—were excellent men in their day and generation—but for profound wisdom they could by no means compare with Mr George Lunt of the Boston Courier. Mr. Lunt at once perceives that their ideas were crude, unformed, sophomorical. Their doctrines and sentiment were such as could not stand for a moment the searching analysis instituted by *his* great mind. "No profound thinker or scholar," (says Mr. Lunt) "could give his assent to the declaration of independence] unless he were already an infidel." How unfortunate that in an age so important to our Republic there were no profound thinkers or scholars—that all the intellectual power and all the wisdom of the first century of the Republic should be concentrated in the person of Mr George Lunt, and that his advent should be delayed until after the principles of our government were adopted, and announced to the world. If Mr. Lunt had lived in 1776 the Declaration of Independence would of course have been written by him, and would have been quite a different affair from the ill considered document of Mr. Jefferson. It would have embodied the wisdom of all ages, and the depths of its "profundity" would have been utterly unfathomable. Alas for the country and the world that so unfortunate a mistake occurred as to the time of Mr Lunt's appearance! The "Model Republic" commenced its career upon a mistaken basis of crude, unfounded and false ideas of liberty and of mere "glittering generalities" in its Bill of Rights—because there were no "profound thinkers or scholars" in that age. Will Mr. Lunt inform us whether the consequences of that mistake are entirely irremediable? Would it be impossible for him even now to place the government on the right track? Could he not still remedy the mischief which has resulted from "the evil examples of Washington and Jefferson"? Would he not consent to revise or re-write our national creed and constitution, so that they could receive the approval of the "profound thinkers and scholars" who dine and drink at the Parker House, and distil their wisdom through the columns of the Courier?

THE REJECTION OF DOUGLAS.—A dispatch of Saturday from Washington, states that when the question of Chairmanship of the Committee on Territories came up in the Democratic Senatorial caucus, Mr Douglas received but seven votes—(the democratic strength being 37) The Douglas votes were thrown by Shields, Stuart, Clingman, Brown, Toombs, Green and Bigler. The debate lasted from ten in the morning till late in the afternoon. Great bitterness was manifested, and Mr. Toombs left the caucus while the discussion was at its height. Mr Broderick was not invited, and Senator Hammond and others absented themselves.

Thus, we perceive, that Mr Buchanan never forgives an enemy, and that the South will demand a full confession before Mr Douglas can be restored to the confidence of "the democracy."

The antagonism of the President and the Secretary of the Treasury, on the subject of the tariff was stated in advance by most of the Washington correspondents, and was denied by the organs of the administration. The truth of the original statement is vindicated by the message and the report of the Secretary. The President advises specific duties; the Secretary defends the ad valorem system.

The government of the United States is about to erect a mammoth foundry on the Pacific coast. It will be located at the Mare Island Navy Yard, near San Francisco.

LOCAL AND MAINE NEWS.

THE HOLMES CASE.—In the Court of the U. S. at Portland, Mr. Evans, counsel for Capt. Holmes, convicted of the murder of the seaman Chadwick, has filed the motion for a new trial, with thirteen specifications, of reasons assigned; but we have no idea the Court will consider them of sufficient importance to sustain the motion. Considerable time, however, is likely to be gained by the movement, before sentence is pronounced—for the Argus says that owing to the absence of Judge Clifford, now in attendance on the Supreme Court Bench at Washington, the motion will not be heard until next spring. If, at the hearing, Judges Clifford and Ware should concur in opinion, their judgment thereon will be final. Should they disagree, the question on which they so differ, will be certified to the Supreme Court a year hence for its opinion. Under any state of facts the case will not be finally disposed of before the last of next April.

THAT COURT HOUSE.—The Pioneer makes some inquiry as to that $30,000 Court House for Aroostook, the plan of which has been seen by the Lewiston Journal man. It seems to consider the thing a piece of extravagance, if the cost is to be anything like the sum reported—and so do we. The Pioneer understood the building was to cost about $6,000, and calls upon the County Commissioners to explain as to the magnificent reports which are abroad.

AN INGENIOUS WORK.—The Brunswick Telegraph says that that noted genius, Maj. E. W. King of that place, recently designed and drafted upon a plain surface, a small house, with four windows, two doors, ceiling, walls, mirror upon the same, three shelves in one corner, chandelier, and upon the floor, six chairs, including two rocking chairs, and centre table. After drafting, he cut out the various articles above detailed; he then folded his paper into the form of a house, and each article took its proper place in the room, and as folded you look into the room, and discover them. The whole is cut from *one piece of paper*, and there is no jointing, no dovetailing about any portion of the work. Two of the windows are fitted with shutters to the lower portions, the others are provided with whole sashes, and one of the supports of the mirror is even used as a fastening to the front door, and the chandelier depends from the ceiling in the centre of the room. The whole work was in drafting, and it may be pronounced a wonderful specimen. The house folded is about four inches square.

Crane & Co. with their usual promptness, furnished us with Boston papers of Saturday evening in advance of the mail.

STEAMER M. SANFORD arrived at Frankfort yesterday afternoon, and will leave for Boston to-day at 12 o'clock, this being her last trip of the season.

KENTUCKY TO MAINE.—A friend permits us to quote from a letter recently received from a distinguished lawyer in Kentucky:

"The State of Maine is the great heart of the temperance reformation at this moment. All the life currents of the cause flow from her. If her pulse does not beat in unison with the laws of sound health, the entire body will show symptoms of disease."—*Portland Advertiser.*

MARINE MEMORANDA.—Barque Iddo Kimball of Rockland, Sleeper, at New York, from Shields, experienced heavy westerly gales the entire passage; crossed the Banks Nov 5, since which time she was driven twice south of the Gulf Stream, 14th ult, took a heavy gale from NW; lost close reefed foretopsail, reefed foresail, foretopmast staysail, mizzen staysail, carried away bobstay and steering apparatus to wheel, and was compelled to lay to for five days, it blowing a perfect gale the whole time.

RUNAWAY FROM A SNOW SLIDE.—The State of Maine of Friday says that two horses belonging to a Mr. Varney, attached to a double sled carriage, standing near Deering Hall, became affrighted in consequence of a quantity of snow sliding from the roof of a building, and started at a fearful speed down Middle street. The vehicle was dashed against a lamp post near Morrill's store, and detached from the fore runners in a demolished condition. The remaining sled attached to the horses was hurled against the back of a sleigh standing near Union street, completely caving in the sleigh and scattering its contents about the street.

LOST OVERBOARD.—William Barrett, aged 20 years, was lost overboard from schooner Mary Fletcher, at sea, on the 1st inst. The deceased was a resident of Calais.

A THIEF CAUGHT.—The Ellsworth American says that Deputy Sheriff Augustus Stevens, of Bluehill, received a letter from the Marshal of Salem, saying that a store in that city had been broken into, and clothing to the amount of $200, stolen; and that two persons supposed to be the guilty ones had been traced to Boston, and on board of a schooner bound to Bluehill, and requesting him to be on the look-out for them. On Saturday one of them was arrested in Ellsworth, and lodged in jail. His name is Alonzo Obear. His partner, and the most guilty one,—as this young man has heretofore borne a good character, got wind of what was going on, and cut for parts unknown.

MELANCHOLY ACCIDENT.—A little son of Mr. Augustine Lord, of this city, was severely scalded by falling backwards into a pail of hot water, on Monday last. He lingered until Tuesday evening, in great agony, when death came to his relief. He was about 4 years of age.—*Hallowell Gazette.*

John F. Miller of Bluehill, master of the schooner Potomac, was tried in the police court at Salem, on Tuesday, on a complaint for receiving a small cannon on board his vessel, knowing it to have been stolen, and conveying the same to Bluehill. The gun was stolen from Central wharf, Salem, in September last. Miller was held in the sum of $800 for his appearance at court.

The Tribune says that when the Oregon bill comes up in the House, a motion will probably be made to add, as an amendment to it, an enabling act for Kansas similar to that adopted for Minnesota, providing for the submission of the constitution to the people.

Various Items.

It is amusing to see the scarcity of whiskers among the office-seekers at Washington. President Buchanan, like a certain French monarch who could never raise any whiskers, has expressed a decided aversion to beards and moustaches; and the satraps appear barefaced before the throne.

The fashionable circles in Albany are being agitated with the prospect of a great wedding soon to come off. There are to be eight bridesmaids, who are to appear in different colors—two in green, two in blue, two in pink, and two in corn color.

It is said there is a skipper who has crossed Lake Ontario so often that he knows every wave by sight.

Count Du Chatel, of Paris, has bought for his wife a ruby, a single ruby, for which he paid $80,000.

A lad named Davis fell, the other day, from the top of a quarry to the bottom, a distance of one hundred and fifteen feet, yet, strange to say, he escaped with his life. The accident occurred in York county, Pennsylvania.

If you get your mouth open to throw out a spike or a dagger, shut it, till you can, like the juggler, transform the weapon into a flower.

A letter passed through the Tappahannock post-office the other day, addressed to a person out west, with the following title, "Attorney at law, and the very —— at bluff."

New Publications.

THE NEW PRIEST IN CONCEPTION BAY. Boston: Phillips, Sampson & Co. For sale in Bangor by Bugbee & Co.

With this brief title, and without author's name, yet evidently the production of a powerful and polished writer, we have a story in two beautiful volumes—most perfect in typography and binding, and introducing the author to the reader's eye in a very attractive dress. The tale (which, even as a story, is full of interest) exhibits to us human nature as found among the secluded and simple dwellers on the bleak Newfoundland shores,—"a strange country across the waters," which the author brings to our acquaintance in terms but beautiful pen-picturings—thus:—

Towards the eastern end of Newfoundland, two of these great bays, called Trinity and Placentia, come in, from opposite sides, north and south, and almost cut the island through, an isthmus only three or four miles wide, in one part, keeping them still asunder. Upon one of these bays, and down the other, crossing the neck between, the telegraph-cable has been drawn.

Around the bays, in coves and harbors, (chiefly on Avalon, the piece almost cut off,) the people live; there are no fertile fields to tempt them inland, and they get their harvests from the sea.

In March or April almost all the men go out in fleets to meet the ice that floats down from the northern regions, and to kill the seals that come down on it. In early summer a third part or a half of all the people go, by families, in their schooners, to the coast of Labrador, and spend the summer, fishing there; and in the winter, half of them are living in the woods, in "tilts," to have their fuel near them. At home or abroad, during the season, the men are on the water for seals or cod. The women sow, and plant, and tend the little gardens, and dry the fish, in short they do the land-work; and are the better for it.

The little town of Peterport, along one of the sits in the shore of Conception Bay, was a very pretty place, thirty or forty years ago, with its cliffs and ridges and coves.

Its people, four fifths of whom were church people, (Anglican Church,) lived by clans—Yarls, Franks, Marchants, and Resales,—in different settlements, on its main strip of land and Indian Point, wherever a beach or jutting cliff made a good place for flakes or stages, or offered shelter for their boats. They had one minister ("parson," as they called him, in their kindly tongue,) five merchants, one schoolmaster, two smiths, three coopers; every man, woman, and child, beside, wrought in the fishery. In summer, most of the heads of families with their sons and daughters, of all ages, were gone, for the season, to the coast of Labrador. Almost all the harbor-schooners, at the time in which our story opens, were there.

One road went down the harbor, winding with the winding shore. Along this pretty thoroughfare there dwelt much innocence and peace; as over it there went the feet of many sturdy toilers, and thronging churchward-goers.

The work is evidently one of high literary merit.

THE ACCIDENT AT SHERBROOKE.—The Montreal Herald gives the following particulars relating to the accident at Sherbrooke, by which an engine broke through a bridge:

"When the Portland train was expected in, a snow plough was dispatched across the bridge, which spans the St. Francis at that place, drawn by an engine before and propelled by a second engine behind. The snow plough and the hindmost engine were precipitated by the break in the middle of the bridge, into the river, but though there were three men upon the second engine, they were fortunate enough to escape unhurt. The driver, it appears, heard something that alarmed him on getting upon the bridge, and put on steam so rapidly as not only to drive his engine over the part about to give way under him, but to jerk the coupling apart. But for this latter piece of good fortune, the engine would probably have been dragged down by the weight of the snow plough and the following engine.

But while the men who were thrown down through the break escaped with a few bruises, a man on the engine which escaped was unfortunately killed. The same jerk which broke the coupling threw him down between the engine and the tender, so that the wheels of the engine passed over his body, and of course killed him on the spot. It seems to be a Providential circumstance that the mischief was before the Portland train came up, otherwise it is to be feared that a much greater loss of life must have resulted from it."

This is another warning to our railroad companies to look well to their bridges.

SENATOR DOUGLAS AT MEMPHIS.—Mr Douglas stopped, on his way to New Orleans, at Memphis, Tenn, and made a speech an hour and a half in length. The report discloses nothing particular new or brilliant. He reiterates his popular sovereignty doctrines, and explains them. He declares that slave property, like every other, goes into the Territories under the sanction of the Constitution, but when there it and all other kinds of property are to be subject to the regulation of territorial law.—*Boston Journal.*

A French paper says that a new kind of paper has been invented for packing, which differs from that in use by its being covered by a very thin coat of gutta percha, which renders it proof against humidity. In order to obtain this result the gutta percha is made liquid, and by means of rollers the fluid is spread equally to any thickness required. Such paper might be usefully made for covering [illegible]

WASHINGTON MATTERS.—We copy the following from the correspondence of the New York Tribune:

"President Buchanan's incendiary Message is the only topic of conversation here to-day. The more prudent Southern men condemn the President for throwing such a firebrand into Congress, and thereby reviving the slavery agitation, while professing to deprecate it—They say it cannot reasonably be expected that the North will keep silent when the President himself reopens the Kansas question.

The Amistad case forces Cuba into the arena of Congressional discussion. The southern men also grumble at being asked to vote for an increase of the army and navy and for a Pacific Railroad. They have not confidence enough in Buchanan to be disposed to trust him with men or money, and he asks for both.

Douglas stock has fallen rapidly since the Virginia State Convention pronounced so decisively against him.

The President professes to feel great indignation at the New York Herald's trickery about the message. He even talks of ordering an examination into the affair.

The democrats have decided to force the Oregon bill through the House without discussion, and without any Kansas addition to it."

A MAMMOTH WORK—ARTIFICIAL LAKE IN VIRGINIA.—Mr. Ellett, the engineer, is engaged in a grand scheme for improving the navigation of the Kanawha River, by forming a vast reservoir or mountain lake to feed that stream during low water. A correspondent of the Lewisburg (Va) Era gives the following information relative to the contemplated improvement:

The object is to form an inland lake or reservoir of water, to keep up the navigation of the Kanawha river. The reservoir, which we are now surveying, will be made by making a dam between the mountains, across Big Sewell creek. The dam is to be 945 feet long, 60 feet high, 400 feet thick at the base and 45 feet at the top. At either side of the dam will be made immense sluices, to carry the water away which would naturally flow over the dam when it gets full. The sluices are to be made of masonry, of the most substantial kind. The water is to be kept in this lake until it is needed in the Kanawha, when it is to be let off as it is needed to keep up the navigation of the river. The means of letting it off will be by means of locks. You can form some idea of the amount of water this will hold when I tell you it is to be 25 miles long, and from 1000 feet to 1½ miles wide. I suppose $1,500,000 will not buy the land and pay the damages. What time it will take this reservoir to fill will, I suppose, depend upon circumstances. The object is, after the lake gets full of water, to cut through the dividing ridge between the lake and Greenbrier river and make a canal through the out.

YOUNG MEN AND YOUNG WOMEN.—There is good sense in the following advice to young men and women, in an article from the pen of Grant Thorburn:

"There is nothing to be gained in dangling for a twelvemonth, after a sensible woman, talking unmeaning stuff—words without wisdom. Tell her your wish *like a man*, and not like a blubbering schoolboy. She will never trifle with your affections; and if there are three grains of common sense in your *muckle* carcass, she will be your own before a month has passed. See the history of Rebekah, in Genesis, 24th chapter, 58th verse. When Abraham's servant had concluded the preliminary contract with Mrs Laban, on the part of her daughter, to become the wife of Isaac, the old man was anxious to get home, to show his young master the *bonny lass* he had brought him, the old mother wished him to remain a few days, to recruit himself and camels. He persisting, it was finally referred to the daughter. "We will call the damsel, and inquire at her mouth," said the mother. When Rebekah appeared, her mother asked her, "Wilt thou go with this man?" Rebekah replied, "I will go."

There was a girl for you. No tear starting from her black eyes, no whining and simpering make-believe, nor mock-modesty; but what her heart wished her lips uttered. Like an honest maiden, she replied, "I will go." Now young ladies, go thou and do likewise. When the man whom you prefer above all others in the world, says, "Will you go with me?"—answer, "I will go."

Bye the bye, ladies, when you wish to read a true, simple, and unsophisticated love story, just read over the 24th chapter of Genesis.

The store of Messrs Bowen & McNamee, Pearl street, New York, was robbed of three thousand dollars worth of black dress silks, on Sunday night last, under the following circumstances:—On Friday afternoon a woman named Fisher hired a room in the sixth story of a tenement house in Pearl street, which backs upon the store of Messrs Bowen & McNamee. On Saturday night the other tenants of the house noticed a great running up and down stairs on the part of the new tenant and her friends, and when opening the store on Monday morning the robbery was discovered. The burglars had cut through a three foot wall into the store, placing a mattress below to catch the bricks and mortar to deaden the sound. They left behind their burglarous instruments, consisting of two tremendous jimmies, braces, bits, a dark lantern, ropes &c.

SINGULAR DEATH.—The Lowell Courier relates that Mr. J. H Atkinson, a machinist in the employ of the Suffolk Manufacturing Company died very suddenly last Friday. He had been troubled with a sore throat for several days, and had been applying remedies, but received no relief. He partook of some milk toast for dinner and then tried to drink some tea, when he exclaimed, "I am choking," and fell back and died in a few minutes. Coroner Jewett was called, and a post mortem examination was ordered, when a piece of iron, about three-fourths of an inch long, and about as wide as an ordinary board nail, was found lodged near the top of the windpipe. As the soreness was about the epiglottis, it is now supposed that he must have taken this piece of iron in his food, several days before, that it lodged there and was drawn thence into the windpipe, while sipping his tea.

A number of prominent physicians of Boston and New York are engaged in getting up a national testimonial to Dr W T G Morton, of Boston, as the discoverer of anaesthesia.—The subscriptions are beginning on a very liberal scale, Amos A Lawrence gave a thousand dollars, John P Cushing five hundred, and the Massachusetts General Hospital a thousand.

The editor of the Gazette informs us, in his last, that he is a "pure and unadulterated Canadian." We inferred from his pedigree, as given in the Democratic Standard, a few weeks ago, that he was of that breed, and the exhibition which he now makes of himself confirms it.—*Dover Enquirer.*

NO PREPARATIONS FOR RESISTANCE. News from Paraguay to the 23d states that Lopez is doing nothing, and making no preparation whatever to resist the American squadron.—[illegible] the expedition, or to the United States in the [illegible]. The Buenos Ayres papers copied with avidity, every detail of the expedition that had reached them from the United States, [illegible] will be well posted up.

WASHINGTON MATTERS.—The correspondent of the New York Tribune says:—"The action of the Senatorial caucus in removing Mr Douglas from the Chairmanship of the Committee on the Territories, has created the greatest excitement. It is regarded as demonstrating the intention of the Democratic leaders to adhere to the extreme pro-slavery policy adopted at the last session—to reduce the anti-Lecompton men to the position of a faction, and to drive them from the party.

A leading Southern Senator said to-day that they had temporised long enough, and that they had concluded to drive Douglas out of the party. The South will tolerate no half way position.

Jefferson Davis and Slidell led the attack on Douglas in the caucus.

Mr Seward, on hearing the result of the caucus, remarked that it was the best illustration that could possibly be given of the truth of his statement that there was an irrepressible conflict between Freedom and Slavery."

Dec 10.—Mr Pryor has an able article in to-night's *States*, deprecating the deposition of Douglas as fatal to the union of the Democratic party. The Slidell men alone are jubilant.

Dec 11.—Mr Comins has presented a petition for a pension to the orphan boys of the late Lieut. John B. Dale.

The Senate bill repealing the Fishing Bounties was taken up in the Committee of Commerce this morning, and referred to Mr Comins who will probably take considerable time before reporting on it.

MEXICAN AFFAIRS—*Washington, Dec.* 10.—Highly important dispatches have been received from Mexico and submitted to government. It is understood that Senor Mata, the Juarez Minister, who recently left Washington, has gone to Vera Cruz to obtain full powers from Juarez to negotiate a treaty at Washington for the settlement of all American claims against Mexico and to guarantee the right of way across Chihuahua, Sonora, and other Mexican territory, to California.

SPECIAL NOTICES.

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER

THREE DAYS

LATER FROM EUROPE.

ARRIVAL OF THE

PERSIA,

AT NEW YORK.

NEW YORK, Dec 13.

Steamship Persia, Judkins, from Liverpool Nov 27th, arrived at 3 o'clock this P M.

The Persia reports heavy westerly gales with very high sea considerable, had snow and sleet the entire passage. Passed going into Liverpool ships M rion, Morse and Record; 28th passed steamer America, bound in. The Persia brings 171 passengers.

The Cunard company dispatch the screw steamer Karnak to New York direct, on the 4th inst, the same day with the Arabia for Halifax, to be employed in the mail service between New York and Nassau.

The Daily News denies that Lord Napier has been in any way censured or superseded, and understands that he has been promoted minister plenipotentiary to Berlin, vice Lord Bloomfield, who retires on pension.

It is considered certain that the Great Eastern will be ready for her first trip to Portland by midsummer next.

The London Times in response to the defence by the American press of commissioner Reed, reiterates its charges against him, and says that a comparison of the English treaty which obtains everything with the American treaty which obtains nothing is all that is necessary to prove its assertion. The same journal has a satirical article on the proposition alleged to be in contemplation at Washington to place a tax on tea, drawing attention to the manner in which a like proposition was treated at Boston in 1773. An American self-imposed tea tax certainly teaches one lesson, and that is that it is not a bad government so much as a meddling domineering government that alienates the members of a free state.

The British board of trade returns for October show a falling off of nearly £717,000 in the value of exports as compared with the same month last year. The shipments of cotton manufacturers however, exhibited a large increase.

Mr Lemon Oliver, the London stock broker who was found guilty of forgery and applying to his own use securities and property entrusted to his care, had been sentenced to 20 years penal servitude.

The Canadian news has undoubted authority for saying that although her Majesty finds it impossible for her and the Prince consort to pay a visit to Canada. A short interval only will elapse before one of the young princes will go there.

Intelligence had reached Lloyds of the loss of 8 Quebec homeward bound ships including the ships Peerless, Barbara, and Rankin; barks Lady Campbell, Petrel, and Claude, and brig Wilkinson. Except in the case of the Claude, there was little or no loss of life.

The Tralee Chronicle publishes the following letter from Valentia dated Nov 21.

Nothing of importance occurred since my last, until Friday, when the weather was so fine that no further pretext could be advanced for not proceeding with the laying down of the shore end of the cable. The vessels accordingly proceeded to sea and succeeded in submerging the few miles of shore cable and in making a splice with the deep sea portion about five mile off Douglas Head. This operation was easily performed and it is much to be regretted that the remaining seven miles of shore cable left at Greenwich was not brought here and added to the part now laid down.—Had this been done there is no doubt but the result would be more evident from the fact that after passing the spot where the shore end terminates, some of the men, in their anxiety to continue the under-running of the small cable discovered a kink, leaving the conducting wire exposed the water and therefore injuring to some extent the conducting power of the wire.

The defective part was immediately cut out, but the under-running was discontinued tho' it is probable that other defects of the kind would have been discovered, had they proceeded. This cannot be said to be giving the present cable a fair trial.

I am not aware that the shore cable has been tested since it was laid down nor is there any person of sufficient experience here to do so.

The Galway line has concluded a contract with Palmer Brothers & Co. of Newcastle on Tyne for the construction of three 1st class side wheel steamers to be ready for sea respectively in June, July and August next.

France.

The trial of Count De Montalembert and M Douniol, editor of the Correspondent commenced on the 24th. The speeches of Messrs Berryer and Dufaure for the accused are said to have been magnificent beyond description. The former spoke for two hours and a half and said that the prosecution was unjust, unfounded, ill advised, and he would add, rash.—When he concluded, a tremendous shout of "Bravo" burst from the lower end of the Court. The Judges deliberated one hour and pronounced the following judgment: Montalembert to imprisonment six months and pay a fine of 3000 francs; Douniol one month imprisonment, and 1000 francs fine.

It is stated that Montalembert will appeal against the verdict.

The result of the trial had called forth bitter articles from the English press and caused a slight depression in the funds at London and Paris.

It is reported that an Anglo French fleet will leave on the 19th for the Gulf of Mexico.

The French fleet will have on board a battery of artillery in order to oppose any enterprise of the fillibusters against Central America.

Spain.

Senor Rus D Olando is said to be appointed Captain General of Cuba; but Concha will remain at Havana until the difficulties with Mexico are arranged. The second division of the squadron to act against Mexico is reported to have sailed.

Much damage is reported to shipping in the Mediterranean during the late severe weather, particularly to foreign vessels. No details are given.

Prussia.

The bank of Frankfort had reduced its rate of discount from 5 to 4 per cent.

The elections had resulted in the complete triumph of the Constitutional party.

China.

The Commissioners from the Imperial Government had arrived at Shanghae to arrange the tariff, &c.

At Canton business was still suspended; but the political symptoms had become more peaceful.

The stock of tea was 560 to 580 chests of inferior quality. The exports showed a deficiency compared with last year of [illegible] pounds, and of silk the deficiency was 3,000 bales.

Liverpool Markets.

Breadstuffs.—Richardson, Spence & Co., report that a return of mild weather has had the effect of checking the improving tendency in the trade. Flour is freely offered and difficult to sell at easier prices: Western Canal 19s a 20s; Philadelphia and Baltimore 20s a 21s; Ohio 21s a 22s.

Wheat in limited demand at previous rates.

Corn depressed and nominal under continued large arrivals of European.

Beef dull and tending downward, with holders pressing on the market.

Pork firmer for Irish.

Sugar in improved demand at rather easier prices.

Coffee steady and quiet.

Later from California.

ARRIVAL OF THE

MOSES TAYLOR,

AT NEW YORK.

NEW YORK, Dec. 13.

The steamship Moses Taylor, from Aspinwall the 4th inst., arrived here this morning with California dates of the 20th ult.

The prominent points of the California news have already been received via the overland mail and the Tehuantepec route.

The Moses Taylor brings about 350 passengers and nearly $1,200,000 in treasure.

The overland mail of Oct, 25, arrived at San Francisco on the 19th ult. It had no passengers, and the news had been anticipated by the Tehuantepec route.

The European news of the 16th Oct., received at New York on the 29th, was received in San Francisco via the Tehuantepec route, on the 14th of Nov.

The ship Lucas, lost Nov. 9, on South Farallone Island, had on board 175 passengers, from Victoria. Among the 15 supposed to be lost, it is stated, were John Blake, E W Purdy, Wm Lock, and J D Long; no other name given.

The San Francisco Market had been unsettled, but signs of improvement began to appear. All descriptions of provisions excepting hams had materially declined; all kinds of sugar declined—refined selling at 12½; breadstuffs inactive and lower; boots and shoes rather better. Money unchanged and plentiful; the receipts of dust were about as usual at this season.

Accounts from the mines were encouraging.—An unusual number of diggers were employed at advanced wages.

Panama dates are to the 4th. 140 of the Washington's passengers succeeded in getting passage on board the Sonora, bound to San *Francisco.*

The Panama Herald says, the action of the British officers in boarding the steamer Washington, had been remonstrated against by commander Mclntosh, of the American squadron, who stated that he would not permit any more visits of the kind.

The schooner Wide Awake was wrecked in Aspinwall harbor, Nov. 20.

Schr. [illegible] had been sold and placed under the Nicaraguan flag.

The steamer City of Washington, from Liverpool 24th ult., arrived this evening. Her news is anticipated via Cape Race and by the Persia.

CONGRESSIONAL.

WASHINGTON, Dec 11.

HOUSE.—20,000 extra copies of the President's Message with accompanying documents, and 16,000 extra copies of the report of the Secretary of the Treasury, were ordered to be printed.

On motion of Mr Scales of N C, a resolution was adopted calling on the Secretary of the Treasury to furnish a statement of the different payments from the Treasury from 1840 to 1858, under the heads of ordinary, extraordinary, and public debts.

The House resumed the consideration of the Watrous impeachment case.

Mr Stewart of Maryland, had not seen in the testimony, evidence of official misconduct to lead him to believe Judge Watrous guilty.

Mr Reagan of Texas, argued that there was sufficient ground for an impeachment.

Mr Clark of New York, with the greatest amount of deliberation, had come to the conclusion that the interests of the country require that there be no impeachment.

Mr Stanton, of Ohio, briefly argued that there was no case made for impeachment.—There was not only an absence of official misconduct, but no imprudence or indiscretion.—The whole proceeding against Judge Watrous had its origin in local prejudice and the malice of disappointed suitors.

Mr Davis of Maryland opposed the impeachment.

Adjourned.

Senate not in session.

From Washington.

WASHINGTON, Dec 12.

The Mobile Register of Thursday contains a letter signed W. H. C. Webster, written in N. Y. in April, 1857, to parties in Nicaragua; it having been obtained in Nicaragua and forwarded to Mobile for publication. It refers to the black mailing of 15 newspapers opposed to Walker, and says, "I am determined to push matters with the cabinet to prevent the sailing of the fillibusters." The Register's heading is "startling developments."

The recent intelligence from Nicaragua has caused much excitement while the boarding of the steamship Washington by British officers is discredited by gentlemen in high positions; others believe it as a revival of the right of search threatening the most serious consequences. The president will send to the senate this week for confirmation, the appointment of several officers whose cases were investigated by the naval courts of inquiry.—Mr English will shortly introduce in the house a bill providing conditions for the future admission of States into the Union.

Senator Douglas en route for Washington.

NEW ORLEANS, Dec. 12.

Senator Douglas left here this morning on the steamship Black Warrior, for New York, en route for Washington. He was escorted to the steamer by the Mayor and a large concourse of citizens. A salute of 100 guns was fired, and there was great enthusiasm manifested by the people.

New York Markets.

NEW YORK, Dec. 1.

Flour, State and Western a shade firmer—unsound 3,60 a 4,20; superfine State 4,55 a 4,60; extra State 4,90 a 5,10, with small sales at 5,10; round hoop Ohio 5 30 a5,50; common to good extra Western 4,90 a 5 20. Southern steady—mixed to good 5,00 a 5,40; fancy and extra 5,60 a 7,50. Canada—Superfine, nominal; extra 5,10 a 6,25.

Wheat steady but quiet—Mixed Southern Illinois at 1,16.

Corn firmer—Mixed western, 78 a 79; white Western 86; new yellow Jersey 78.

Oats firmer—Southern and Jersey 43 a 48; Northern and Western 49 a 55½.

Beef quiet—Country mess 7.75 a 9.40; prime, mess, 4,50 a 7.00; repacked Chicago, 9,50 a 10,50; prime mess 15,00.

Pork lower—Mess 17,95 [illegible] prime 14,25 a 14,50.

Sugars steady—sales by auction. New Orleans 5¼ a 7 68-100; New Orleans 7 a 8; Muscovado 6½ a 7½. Havana on private terms.

Coffee quiet and firm—St Domingo 9½ a 9¾.

Molasses quiet—new crop New Orleans 34 a 35.

Highly Interesting from Nicaragua.

Passengers per Steamer Washington refused leave to cross the country—The Steamer visited by American and English Naval Officers—A Boat Load of Passengers Chased by the British—The Passengers returned to New York.

NEW YORK, Dec. 13.—The steamship Washington arrived this morning. On her outward passage she arrived at Port Royal on the evening of the 14th ult., and landed several passengers. She arrived off the harbor of San Juan on the morning of the 18th, having experienced a heavy gale on the 15th and 16th. Was boarded outside the harbor by a boat from the U. S. frigate Savannah; entered the harbor at noon. The Savannah, Jamestown, and British ships Leopard and Valorous were in port. Sir Gore Ouseley was on board the latter.

Col. Childs, the Company's Agent, gave notice that nothing had been heard of the Hermann at San Juan del Sur, and that the Nicaraguan government refused to permit the Washington's passengers to go through the country, alleging they were fillibusters. The steamer Catherine Maria was sent to Granada to obtain such permission, if the Hermann was at San Juan del Sur.

The Washington was boarded by English officers from the Leopard and Valorous, with side arms, who asked various questions as to whether there were arms and ammunition on board, and requested to see the passenger list. They were told that the ship had been boarded by an officer of the Savannah, who would give them information.—They replied that they were instructed to obtain such information direct. They did not, however, insist upon the hatches being taken off, and left the ship rather suddenly.

The same day the Leopard went to sea, and went to the mouth of the Colorado, to intercept 250 fillibusters which it was reported the Washington had landed there the previous night; our boat could not get up the San Juan, owing to the low water, and had proceeded to the mouth of the Colorado, where she arrived at daylight the next morning, just in time to be seen by the Leopard. She was chased by boats from the Leopard, with howitzers and small arms, and, having to stop to fix steam pipe, was overtaken by them. Finding they were mistaken as to fillibusters being on board they went back to their ship, which returned to Georgetown.

On the 25th, the flagship Roanoke arrived at Greytown, with information that the Hermann had returned and proceeded to San Francisco.

On the 24th, Col. Childs, the company's agent, returned from Granada without accomplishing any arrangement. On the contrary the boat was not allowed to pass from San Carlos without an officer and a file of soldiers on board.

The government, however, finally became satisfied that there were no fillibusters on either the Washington or Hermann, and the steamer was permitted to land at Virgin Bay, and an agent of the company was permitted to go to San Juan del Sur to look after the Hermann.

The Jamestown sailed for Aspinwall on the 22d. The Washington sailed on the same port on the 26th, to send her passenger forward via Panama, and arrived on the morning of the 28th, in company with the Moses Taylor. No order having come by that ship for the Washington's passengers to go forward by the Mail route, they remained on board the Washington, and returned to New York on the evening of the 1st. Not a case of sickness occurred on board.

The Moses Taylor, and Granada were left at Aspinwall. The United States ship Jamestown sailed 29th for San Juan. The storeship Relief was also at Aspinwall.

SHAMEFUL! We learn from the most reliable authority that one of our most respected mercantile houses shipped a negro to Havana by the barque Andes, which has just sailed from this port. He was conveyed on board the vessel in a box. Where are our city authorities and the friends of freedom, that such a nefarious business can be consummated in our midst?—*Argus.*

If the above is "shameful" now, it will be a *burning* shame when it reaches Havana; for we learn that the aforesaid "negro" is a castiron lamp-post in human form, with an arm extended, through which *gas* will issue, of a quality more useful than that which streams from the quoted paragraph.—*Portland Advertiser.*

Bayard Taylor refuses to make any more engagements for lecturing the present season. He is engaged for one hundred nights, at $50 per night.

Dec. 1st, 1858.

[illegible] *hours entirely by daylight*, [illegible] boats to fever and ague and 700 miles of danger on lake and river navigation, over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing to passengers by the Mail Line a *sure* and *short* passage with the greatest comfort and safety to health.

Tickets can be obtained only of the Co.'s agents [illegible] and tickets through [illegible] the U. S. and Pacific Mail Steamship Companies in this city [illegible]

No. 25 Broad street, Boston

LINCOLN'S WATER PROOF BLACKING, AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician.

Is it not a truth that when the feet are often wet it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried it soon becomes hard, stiff, and cracks, but when this water proof this is remedied. By the application of this preservative it remains soft and entirely impervious to water.

After being engaged for 25 years in the manufacture of leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting with different compositions, and found it easy to make it water proof but at the same time extremely injurious to the leather. At last by a chemical process I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water proof, but it also will [illegible] the leather and itself

Positively wear twice as long.

I have now used it three years and a large part of that time have worked in a wet tannery with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence recommend it to the public as the best article in the market.

next door to *Thomas A. White's* where he keeps a full assortment of Custom Made

French Boots and Shoes,

of every description

Gentlemen's Boots, and Ladies' Shoes, Boots, Slippers, etc., made to measure and warranted to fit without pressure, and in the latest French style.

All kinds of Repairing done with punctuality and despatch. Satisfaction given, or no pay

aug 3 · CHRISTIAN BUETTINGER

"Hitchcock's Combination Suction and Force Pump!

FOR SALE a new kind of PUMP—suction and force—different from any thing now in use *for durability* &c. You can draw water from a deep well and force it to any part of your building at the same time, in case of fire or any other exigency. You can have it with or without the forcing part. Any person with a jack knife can do all the repairing that it will need for twenty years, as it will not get out of order and is not liable to freeze up like other Pumps. It has received the first premiums at our State Fairs, and numerous county fairs.

It may be examined at the Tin Shop of Albert Noyes, Central street Bangor, where I shall remain for a few weeks. Town rights for sale.

R H SMITH.

Bangor, April 27 1858

WE STILL LIVE! AND ARE AWAKE!.

And continue to sell MEATS, of all kinds, CHEAP FOR CASH.

We will cut Meats in pieces to suit the largest or smallest families, and deliver promptly.—Also, BEEF and PORK, by the barrel, at

RICE's STALLS, No's 7 & 9 Norombega Market.

We are bound to UNDERSELL any one in the business. We return unfeigned thanks to our numerous customers for their liberal patronage during the last four years, and hope by strict attention to *OUR OWN* business, to merit and receive a continuance of the same.

Come one, come all!
Both great and small,
And give us a call

At RICE'S STALL—
For this is the place
To make a fine haul!

As both rich and poor can be suited—the rich with choice cuts, the poor with a large quantity of good Meat for a Little Money,

Come, come—without money and without price,

To M. C. & A. H. C. RICE,

Stalls 7 and 9 Norombega Market.

Recollect the Place—Double Stalls.

Bangor December, 1857

Scientific American.

PROSPECTUS.

Volume Fourteen.

BEGINS SEPTEMBER 11, 1858.

MECHANICS, INVENTORS, MANUFACTURERS AND FARMERS

THE SCIENTIFIC AMERICAN has now reached its Fourteenth Year and will enter upon a New Volume on the 11th of September. It is the only weekly publication of the kind now issued in this country, and it has a very extensive circulation in all the states of the Union. It is not, as some might suppose from its title, a dry, abstruse work on technical science; on the contrary, it so deals with the great events going on in the scientific, mechanical and industrial worlds, as to please and instruct every one. If the Mechanic or Artisan wishes to know the best machine in use, or how to make any substance employed in his business—if the Housewife wishes to get a recipe for making a good color, &c.—if the Inventor wishes to know what is going on in the way of improvements—if the Manufacturer wishes to keep posted with the times, and to employ the best facilities in his business—if the Man of Leisure and Study wishes to keep himself familiar with the progress made in the chemical laboratory, or in the construction of telegraphs, steam ships, railroads, reapers, mowers, and a thousand other appliances, both of peace and war—all these *desiderata* can be found in the SCIENTIFIC AMERICAN, and *not elsewhere*. They are here presented in a reliable and interesting form, adapted to the comprehension of minds unlearned in the higher branches of science and art.

TERMS.—One Copy One year, $2 00, One Copy Six Months $1, Five Copies Six Months $4, Ten Copies, Six Months, $8, Ten Copies Twelve months $15, Fifteen Copies, 12 Months $22, Twenty Copies, Twelve Months, $28, in advance.

Specimen copies sent gratuitously for inspection. Southern and Western money, or Postage Stamps taken for subscriptions. Letters should be directed to · MUNN & CO

128 Fulton Street New York

Messrs Munn & Co are extensively engaged in procuring patents for new inventions, and will advise inventors, without charge, in regard to the novelty of their improvements. · aug24

LOOK.

THE LUXURY AND PROFIT OF HONEY MAKING.

Torrey's Bee Hive.

THE subscriber, having purchased the right of making and selling *Jones' Patent Bee Hive* for the Counties of Penobscot, Lincoln and Sagadahoc, which has been received with so much favor and taken the first premiums wherever exhibited, has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals.

This Bee Hive thus improved, is admitted by persons acquainted with the honey making business, to be superior to every thing yet invented for the purpose. It covers all the requisitions for the profitable maintenance of the apiary, by providing for ventilation at all seasons of the year—room for the exercise and feed of the bees—convenience for the removal of excrement, for the proper separation of the swarms, and generally for the health and comfort of the workers.

The boxes used in this Hive for storing honey are the best adapted in their size, for the market, holding from three to six pounds each.

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights.

For sale, fifty swarms of Bees, with the new hives.

For hives, individual rights, &c. address

R. S. TORREY,

feb13 d&w · Fifth street, Bangor

TO THE SUFFERING.

DR PETTIT'S

CANKER BALSAM

For the Cure of

CANKER IN ALL ITS FORMS

In Camden, Me., a Carpenter, afflicted with Canker in the mouth, tried various remedies, had recourse to physicians, &c. but could obtain NO RELIEF. His mouth was one complete Canker Sore. The Gums swollen and affected to the point of suppuration, and cleaving off from the teeth. A perfect cure was effected by one bottle of Dr. Pettit's Canker Balsam.

American Safety Paper Manufacturing Company of N. Y.

Capital $500,000.

A. NICHOLAS, President · Office, 70 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Anastatic Counterfeits, Erasures, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GLYNN, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr Kent, Assayer of the U. S. Mint, Mr Lyman of the New York Clearing House and Meade Brothers, extensive and skillful photographers, 233 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices.

Bank Checks—35 cts per lb
Bank Bills—$18 for 1000 sheets
Bills of Exchange—$25 for 1000 sheets
Promissory Notes—40 cts per lb
Sight and Time Drafts—$25 for 1000 sheets
Insurance Policies—40 cts per lb
Railroad Stocks and Bonds—40 cts per lb
Bank and State Stocks—40 cts per lb
Bonds and Mortgages—40 cts per lb
Wills and Deeds—40 cts per lb

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts a lb.

For Indentures and Agreements 40 cts a lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent and much superior to any other, as the moisture of the climate does not destroy it,—the properties inserted in the pulp being a preventive. In all the Southern States, Cuba, the West Indies, and the Central American States no public records can be kept over 20 years written on the ordinary paper, while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County N J of about 300 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No 70 Wall street, New York.

American & Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington (under the Act of 1837)

76 State St., opposite Kilby St.,

BOSTON

AFTER an extensive practice of upwards of twenty years continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England but through it inventors have advantages for securing Patents, of ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe and can prove that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe render him able beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there are here saved inventors.

TESTIMONIALS.

"I regard Mr Eddy as one of the most capable and successful practitioners with whom I have had official intercourse." · CHAS MASON,

Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office." · EDMUND BURKE,

Late Commissioner of Patents

Boston February 8 1858

"Mr R H Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." · JOHN TAGGERT.

From Sept 17th, 1857 to June 17th 1858, the subscriber in course of his large practice made on twice rejected applications SIXTEEN APPEALS EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.
